Product Description
This newly designed wall socket is designed with ZigBee protocol to replace the traditional wall socket. The APP has newly added new pairing mode with Bluetooth enabled, panel indicator mode and relay status setting (power on, power off, power off memory), switch log, child lock, current statistics, overcurrent protection, etc. Enter Smart Life/Tuya app, all control modes are effective without any interference. Its design is suitable for different decoration styles, which is really great value for money.

Safety Information
Risk of Electric Shock:Electricity can cause personal injury and property damage if handled improperly. If you are not sure about any part of these instructions, please seek professional assistance from a qualified electrician.

Technical Parameters:
Model: ZK–EU(FR/UK)
Voltage: 95-245V AC, 50/60Hz
Wireless Protocol: ZigBee
Max. Current(pure resistive load): 16A
Max. Load Power: 3000W

Warnings:
Turn off the power at the circuit breaker and test that power is off before wiring.

Installation

Note:
• Install the switch with electricity off.
• Do not install in damp environment.
• Neutral wire in not required(single live line).
• Do not exceed the maximum load.
• Please follow instructions and properly install.
• If you don't have any wiring experience,please call a professional electrician.
• Ensure the Wi-Fi signal is steady and normally working before wiring and your mobile and Zigbee gateway hub are under the same 2.4GHz WiFi network.

Step 1
• Turn off the circuit breaker and use the electrical tester to test the power.
• Ensure the switch is off before wiring.

ON ⚠ OFF

⚠ Attention:
Please disconnect the power supply before installing or removing the device for avoiding irreversible damage on the device from the electric current or some unpredictable problems such as lamp flashing.

Step 2
• Remove the old switch

Step 3
Remove the switch and pull it away from the wall.
• Identify Line/Load Wire(Note:The color of your wire may be different from the color shown on the manual.)

⚠ Verify power is off
• We recommend you remove the faceplate from the old switch and use an electrical tester to test all wires connected to the switch to ensure there is no voltage in the circuit.
• You may need to turn off more than one circuit breaker.

Step 4
• Take pictures of the wiring
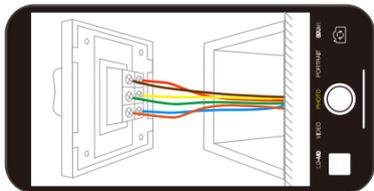

• Follow the wiring diagram to connect the switch wires to the wires in the wall box with the wire conductors.

Step 5
• Remove the panel with screwdriver
(Please don't install with electricity power on)

See the picture below

Step 6
• **Preparing to install wiring**
  A. Connect the live wire to the "L" terminal
  B. Connect the neutral wire to the "N" terminal
  C. Connect the ground wire to the "G" terminal

Add Devices

① Download Smart Life App

Google play   App Store

Please scan the QR code or download Smart Life on App store.

---

② Registration or Log in
• Download "Smart Life"Application
• Enter the Register/Login interface;tap "Register" to create an account by entering your phone number to get verification code and "Set password".Choose "Log in" if you already have a Smart Life account.

③ Configure the APP to the switch
• Preparation: Ensure the switch has been connected with electricity;ensure your mobile and ZigBee gateway hub are under the same 2.4GHz WiFi network.

Note:
The switch only supports 2.4G network.If you have connected 5G network,please disconnect 5G network firstly and connect 2.4G network.

---

③1 ZigBee link method one:
Scan the QR code to configure the network guide.

(1)   (2)

Scan the QR code   Please connect the device according to the configuration process.

---

③2 ZigBee link method two:
Re–pair and clear up the ZigBee code
Press and hold the button for about 5 seconds,until the blue indicator on the switch flash fast after 3 seconds. Repair is successful.
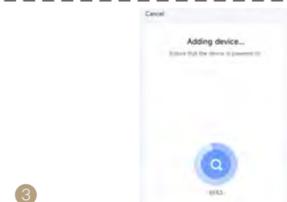

① Open the App, select "+" on top right,choose"Switch (Zigbee)" to add device.And select the right Gateway to confirm the connection.
Note: Make sure you have successfully connected one Zigbee gateway hub.

② Confirm the Zigbee switch blue indicator is flash fast (twice a second).

Adding device...

③ The connecting will take about 10–120 seconds to complete depending on your network condition.

④ When pairing is done, the Zigbee switch will be shown on the App.

How to Reset/Re–pair ZigBee code
Press and hold the button for about 5 seconds,until the blue indicator on the switch flash fast after 3 seconds. Reset/Re–pair is successful.

Set your Echo speaker by Alexa APP

① If you have finished installing Smart Life,just open Amazon Alexa App;log into your Alexa account with password.

② Click the menu on the top left –click "settings",choose "Set up a new device"(choose a device like Echo)

Note:
When below page appears,long press the small dot on your Echo device until the light turns to yellow.Then click "Continue"on the App.
Attention:The mobile phone can not open a variety of VPN software.

③ Choose your own Wi-Fi and wait for a few minutes.After watching an introduction video,click "next step",then it will enter Home page automatically.Now the Echo has been connected to Wi-Fi successfully.

Enter Smart Life Skill in Alexa APP

1. Complete product networking configuration in the App
Complete the device's networking configuration according to the prompts in the App.
Note: In the App, change the name of the device to an easily identifiable name such as Alexa; names are usually in English, such as "bed light".

2. Configure the Amazon Echo device
(If you have already configured Amazon Echo, you can skip this step. The following instructions are based on the iOS client.)
•Make sure you Amazon Echo device is powered on and connected to a Wi-Fi network.
•Open the Alexa App on your phone. After successful login, tap on the menue in the upper left corner of the Home page, select "Settings" and tap "Set Up A New Device" to set up the Amazon Echo.
•Choose your Amazon Echo device type and language for connecting. Press and hold the small dot on the device until the light turns yellow. Then tap "Continue" to connect to the hotspot.

• After connecting to the Amazon Echo hotspot, return to the page. At this point, the connection is successful.

SETUP
Begin Echo setup
Let's get your Echo connected to Wi-Fi so you can start using it.

Add Device
Add Group
Add Multi-Room Music Speakers
Add Stereo Pair / Subwoofer

CONTINUE

Select your Wi-Fi network

Smart Home
Smart Life
NETGEAR-YUNYINGKU
501-CO

Tap "Continue" to proceed to the next step. Choose a Wi–Fi network to connect to. Amazon Echo will take a few minutes to try to connect to the network.
•After the network connection is successful, tap "Continue". An introduction video will appear. After the video ends, tap "Continue" to jump to the Alexa Home page. You have now completed the Amazon Echo's configuration process.
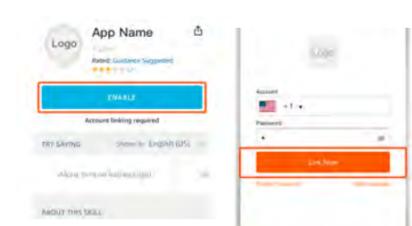

3. Key step —— Link Skill
•Tap on "Skills" in the Alexa App menu.

Add Device
Lists
Reminders & Alarms
Contacts
Routines
Things to try
Skills & Games
Activity
Help & Feedback
Settings

•Then search for "App Name". Tap "Enable" to enable the Skill.
•Enter the App account and password, then tap "Link Now" to link your App account to enable the Skill. Now you can start your smart home journey.
