Technical Features

- The WIFI Smart Device Is Designed To Control, Schedule And Monitor Your Home Electrical Appliances Via Your Smartphone Or Manually By Powering On/Off
- The WIFI Smart Device Is Compatible With WIFI Function Which Enables It To Perfectly Perform The Following Features:

1. APP Control 2. Timing & Schedule Function
3. Sharing Control 4. Sync Status
5. Voice Control (Compatible With Google Assistant And Amazon Echo)
6. Integrate With IFTTT 7. No Hub Required

Tip: The Factory Default Status Initial-ization Is ON. You Can Change The Initialization Status In "Setting" Button

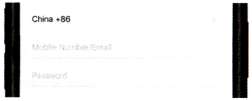
App Installation

- Connect Your Smartphone Or Tablet To The WLAN Router.
- Download The "SMART LIFE" Or "TUYA SMART" App From The App Store/Google Player/Official WebsiteTo Your Smartphone Or Tablet. Or Scan The QR Code Via Your Smartphone To Install The App

Download on the App Store | Google Play

- Start The Setting Up Process By Opening "SMART LIFE" App
- Enter Your Username And Password To Get The Verification Code To Log Into "SMART LIFE" App To Get Connected With Your Devices.

- Set Up Your Desired Password To Log Into The App Directly



Our Service: 2 Years Warranty From The Date The Item Is Purchased

Tip: Only 2.4GHz WIFI Frequency Is Supported

Safety Instructions

- Switch Off Power Supply Before Installing
- Use An Electrical Tester To Ensure Safety
- Check The Terminal Connections Before Wiring

- Voice Control:
  Compatible with Google Assistant AndAmazon Echo Turn Your Home Devices On/Off With Just The Power Of Your Voice
- Integrate With IFTTT:
  Compatible With IFTTT App Which Has The Possibility To Control Your Device Via Your Smart phone And Voice Control
- No Hub Required:
  You Can Entirely Connect Your Devices Over Wifi Without Needing Any Additional Accessories

Note: During The Adding Process,The Smartphone Should Be In A Direct Range With The Device

Warning: All Of The Cover Frames And Functions Are Designed To Only Fit And Work With Our Devices

Device Basic Operation

Read The Device's Operating Instructions Before Starting Any Electrical Work To Avoid Any Damage Caused Via Improper Use
